

Healthcare Systems Interest Group

HSIG

2025 OKRs

Mission statement

Support healthcare systems on their OHDSI journey

2025 Objectives

Objectives:

1. Provide support for transforming source EHR data to the CDM
2. Establish a repository for community contributed, semantic mappings, continued from 2024
3. Contribute to The Book of OHDSI

Objective & key result #1

Objective #1: Provide support for transforming source EHR data to the CDM

Key results:

- “Office hours” style agendas during our regularly scheduled meetings 10 times a year.
- Monitor & answer questions on the CDM Builders, Implementers, and Uncategorized forums related to source data or the ETL process

Objective & key result #2

Objective #2: Establish a repository for community contributed, semantic mappings for use by others in their ETL

Key results:

- Establish the repository
- Successful upload of a contribution to the repository
- Successful use of semantic mapping contribution in an ETL

Objective & key result #3

Objective #3: Contribute to The Book of OHDSI

Key results:

- Outline the Health System chapter
- Write an executive summary for each section
- Start writing 2 sections
