

OHDSI

OBSERVATIONAL HEALTH DATA SCIENCES AND INFORMATICS

Themis working group

2025 OKRs

Themis Mission & Ethos

The goal of Themis is to provide conventions on how source data should be standardized to the OMOP CDM to support the OHDSI community to generate the evidence that promotes better health decisions and better care. When there is ambiguity on how data should be inserted into the CDM, Themis will examine the issue, create a convention and document it.

We follow the FAIR principles: Findable, Accessible, Interoperable and Reusable. *FAIRR - reproducible*

Themis makes decisions for the good of the whole community. We must compromise. We can always revisit and modify the convention. Don't let perfect be the enemy of great. And interoperability between different OMOP CDMs is great!

Themis 2024 accomplishments

- ✓ Establish a formal project management process
- ✓ Establish a repository for Themis conventions

2025 Objectives

Objectives:

1. Have one central location for OMOP CDM conventions
2. Succinct list of active issues

Objective 1 & key results

Objective #1: Have one central location for OMOP CDM conventions

Key results: Incorporate resources from other OHDSI standards into Themis documentation

- ❖ The Themis convention library will contain or link to formal CDM expansions
- ❖ The Themis convention library will link to domain specific WG documentation

Objective 2 & key results

Objective #2: Succinct list of active issues

Key results: Clean up current GitHub issues

- ❖ Archive
- ❖ De-duplicate

Themis working group details

- ❖ Located in MS Teams
- ❖ Meetings: 1st & 3rd Thursday at 10 am Eastern Time
- ❖ All are welcome!
- ❖ #JoinTheJourney
